

## The NIU Student Chapter of

announces out final meeting and speaker of the semester on Tuesday, April 26<sup>th</sup> at 3:30pm in PM 253.

### Dan Greiner

is a Senior Scientist and Master Inventor with IBM's Systems and Technology Group where he has worked for the past nine years developing architecture for System Z. He is currently the editor of the CPU portion of the z/Architecture Principles of Operation. Prior to IBM, Dan worked for 22 years at Amdahl Corporation in a variety of customer support, marketing, firmware engineering and management positions. He has been involved with mainframe computers for the past 40 years.

He will talk about the history and future of mainframe systems, particularly the z/Architecture.

There will be refreshments at 3:30 and the talk will start at 4:00.

*Note\*\*\*We will also be holding elections for officers for next year. Please contact one of the current officers or faculty advisors (Amy Byrnes or Georgia Brown) for more information.\*\*\**
