

Each summer Argonne supports more than 200 undergraduate students through various internship programs. These programs are essential to growing a diverse workforce by providing our next generation of scientists and engineers with opportunities to apply their classroom knowledge, explore STEM careers, and engage in real-world research.

### **Important Deadlines**

[Science Undergraduate Laboratory Internship \(SULI\)](#) - January 8, 2016, 5 p.m. EST

Department of Energy-funded 10-week internship program that provides students with a research experience.

[Community College Internship \(CCI\)](#) - January 8, 2016, 5 p.m. EST
