

CSCI 240 Grade Check List

Reminders:

1. If you have questions about grades, please bring this sheet with you.
2. According to the syllabus, you have two weeks from the date an assignment was returned in class (whether you were there or not) to inquire about the grade. If you miss class, you can pick up your assignments from my office during office hours.
3. If there are any questions about grades, you will need the original graded assignment, so keep all of your graded assignments until the end of the semester.
4. If there is any question about whether an assignment was submitted, you will need a file with the original date and timestamp. So keep a backup copy of each submitted assignment on a permanent medium, such as hard disk, floppy disk, CD-ROM, or USB drive (thumb drive). A copy created by ftp or by mailing a file to yourself will not preserve the original date and timestamp and so cannot be used for this purpose.
5. Please bring a machine-readable copy of your program, e.g., on a floppy disk or USB drive, to office hours with you.
